Description of Problem

Please include a detailed description of the issues, as well as a description of and a copy of any professional studies, citations or reports from government entities, recommended solutions, and any cost information or estimates. If additional space is needed, please attach.

McNary Elementary is a small, rural school with 142 students in grades K-8. We try to be very judicious in the use of our funds, and have not chosen to spend money on items that we consider to be "luxuries", such as a scissor lift, but could certainly use one...It could be used both inside and outside the school building for projects such as: maintaining lights, maintaining heating and air conditioning systems/filters, heaters in the school gym, cleaning out gutters, painting, etc.

Project Category: Special Equipment

Are any of the above-described issues in buildings or part of buildings that are leased to another entity, including a district sponsored charter school? N

Available Funding

Available Funding Source	Amount
Current unencumbered building renewal fund balance (Fund 690):	\$76,337.00
Amount of Local funds planned for this project	\$0.00

Please outline any associated insurance coverage.

We estimate a used scissor lift to cost about \$7,000. The school proposes to contribute \$2,000. and requests that SFB contribute \$5,000.
